

# AutoStore BINs

- Produced by Us, Optimized for You!

## From Order to **Integration** – We've Got You Covered!

At the forefront of sustainability and efficiency, we offer the Nordic region's most eco-friendly production -powered by a smart energy mix and a deep commitment to sustainability.

Need a seamless supply of AutoStore BINs? We deliver -fast, precisely, and hassle-free. Our dedicated on-site service ensures smooth system refilling whenever you need it.

We know time is critical. That's why our pallets are packed for efficiency, minimizing waste and streamlining the unpacking process -so you can integrate large volumes faster and with less effort. From the moment you place your order to the final integration, we're more than just a supplier -we're your trusted partner.

- Sustainable Production
- Optimized Packaging for faster integration
- Reliable, on-site service
- Precision deliveries, every time
- Shorter transports within Scandinavia
- Sweden is the country with the lowest CO<sub>2</sub> footprint in production
- Only producer in the Nordic of AutoStore BINs

2 more sizes are available:

220 mm

425 mm

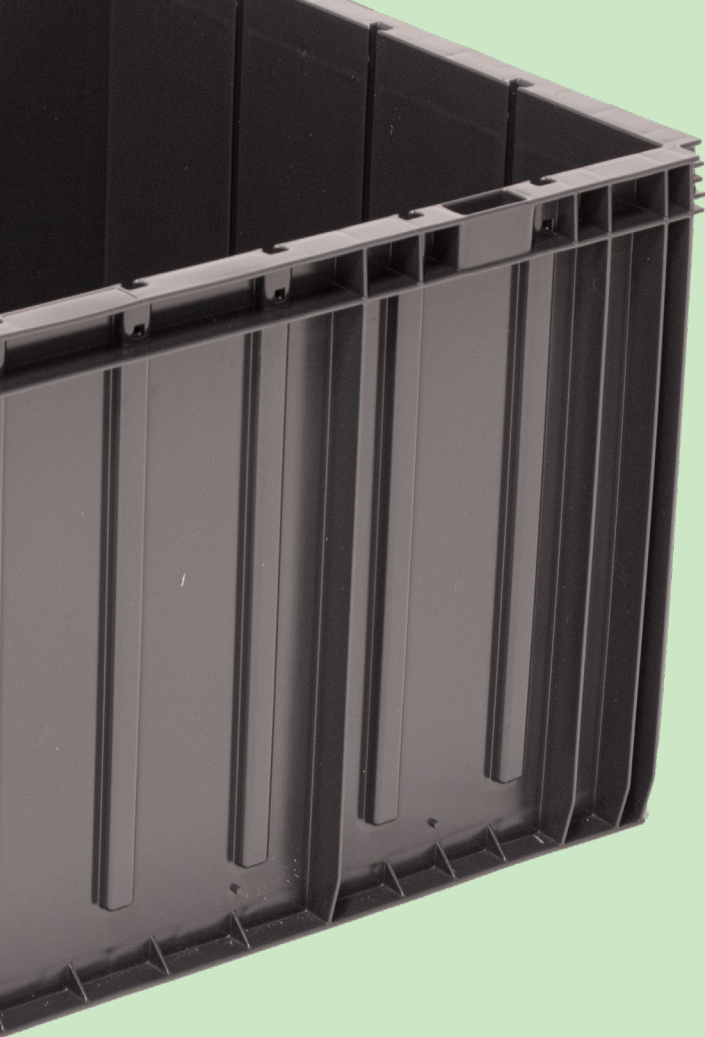

330 mm

## AutoStore BIN

As a partner we can provide AutoStore's fully automated Cube Storage System with the BINs solutions manufactured locally at our state-of-the-art facility in Sweden. While our reach is global, our primary focus lies within the Nordic market, focusing on good quality products with sustainable accessories. With years of experience in polymer materials and in-house compounding of polymers, we can provide high-tech BINs for all needs.

## Fast. Tailored. Reliable.

At Axjo, we bring extensive experience in working with polymer materials. Our dedication to continuous development and a focus on quality, service, and materials are evident through our internal expertise and confirmed by our customers. We always strive to provide our customers with the best possible products, tailored to their specific needs, delivered on time, and with minimized transportation distances. Our Greenology Lab, R&D Center, and Tech Center enable us to transform ideas into final products quickly while maintaining an unwavering commitment to quality and sustainability.

## **A sustainable vision for a better tomorrow**

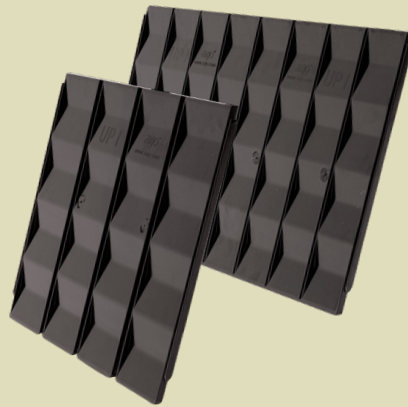

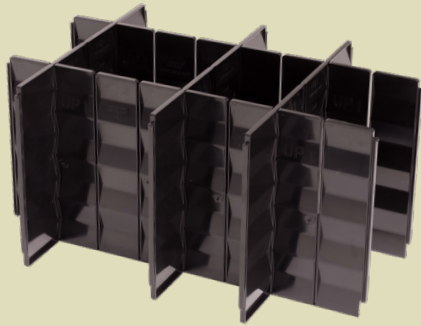

Our ambition is to work towards becoming a zero-waste company by embedding sustainability into every aspect of our operations. We are dedicated to minimizing waste, optimizing resources, and implementing environmentally friendly practices, all while maintaining a strong focus on innovation, quality, and ethical business standards.

## Additional Products

As the only manufacturer of AutoStore BINs in the Nordics, we provide customized solutions tailored to your system. Our offering also includes accessories made from 100% recycled materials. With Swedish-made AutoStore BINs, sustainable

accessories crafted from recycled materials, and a perfect fit for the AutoStore system, we ensure efficient logistics and innovative accessories designed to meet your needs.

100% recycled ABS -  
80% lower CO<sub>2</sub> footprint

Best long-term  
economical solution

Will last as long as  
the BIN-guaranteed

Locks in place and holds  
the sides together
