

Storage Solutions

Seamless Storage. Smarter Business.

Small Storage

Axjo supports the small storage solutions industry with innovative, sustainable designs. Committed to sustainability, we use 100% recycled materials for all colours to meet the increasing demand for environmentally responsible practices in the sector.

Storage Trays

Storage Trays

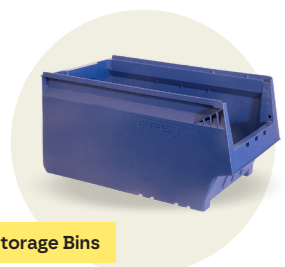

The market's most complete and modern range of storage trays for efficient storage and handling on shelves in racks, storage, storage vending machines, etc. The range is available in two different series – the 30 series

which is 80 mm high and the 31 series which is 100 mm high. Each series contain two different widths and four different lengths and comes in two different colors. For all trays, we have straight dividers available.

Model	Size (L x W x H) mm	Colour	Dividers
3001	300 x 94 x 80	● ●	Straight (3)*
3003	300 x 188 x 80	● ●	Straight (3)*
3011	400 x 94 x 80	● ●	Straight (5)*
3013	400 x 188 x 80	● ●	Straight (5)*
3021	500 x 94 x 80	● ●	Straight (7)*
3023	500 x 188 x 80	● ●	Straight (7)*
3031	600 x 94 x 80	● ●	Straight (9)*
3033	600 x 188 x 80	● ●	Straight (9)*

Model	Size (L x W x H) mm	Colour	Dividers
3101	300 x 115 x 100	● ●	Straight (3)*
3103	300 x 230 x 100	● ●	Straight (3)*
3111	400 x 115 x 100	● ●	Straight (5)*
3113	400 x 230 x 100	● ●	Straight (5)*
3121	500 x 115 x 100	● ●	Straight (7)*
3123	500 x 230 x 100	● ●	Straight (7)*
3131	600 x 115 x 100	● ●	Straight (9)*
3133	600 x 230 x 100	● ●	Straight (9)*

* Figures in brackets (1-9) = Max number of dividers in bin or tray.

Storage Bins

Storage Bins

A series of practical, stackable storage bins that follow current industry standards. The bins are Swedish-made and co-stack with other models on the market. A part

of this range is available with accessories – lengthwise dividers.

Model	Size (L x W x H) mm	Colour	Dividers
3071	500 x 310 x 200	● ● ● ●	Length
3072	500 x 310 x 250	● ● ● ●	Length
3073	350 x 206 x 150	● ● ● ●	Length

Model	Size (L x W x H) mm	Colour	Dividers
3074	250 x 148 x 130	● ● ● ●	
3075	170 x 105 x 75	● ● ● ●	
2076/3076	96 x 105 x 45	● ● ● ●	

Modular Bins

Modular Bins

A series of stackable modular bins that follow current industry standards and are adapted for 1000 mm wide shelves.

The bins are Swedish-made and co-stack with other models on the market. Available for four different shelf depths - 300, 400, 500 and 600 mm. Available with accessories such as lengthwise and straight dividers.

Model	Size (L x W x H) mm	Colour	Dividers
3070	600 x 230 x 150	● ● ● ●	Length / Straight
3069	500 x 230 x 150	● ● ● ●	Length / Straight

Model	Size (L x W x H) mm	Colour	Dividers
3068	400 x 230 x 150	● ● ● ●	Length / Straight
3067	300 x 230 x 150	● ● ● ●	Length / Straight

ALC

Axjo ALC solutions provide strong, secure storage with built-in lids. Designed for efficiency and sustainability, they are perfect for various uses, offering dependable and reusable storage options.

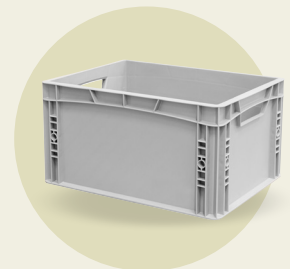

Model	Size (L x W x H) mm	Colour	Volume (L)
400/210	400 x 300 x 210	Blue	25,2
400/320	400 x 300 x 320	Blue	38,4
600/250	600 x 400 x 250	Blue	60,0
600/320	600 x 400 x 320	Blue	76,8
600/365	600 x 400 x 365	Blue	87,6
600/365	600 x 400 x 365	Blue	87,6
600/416	600 x 400 x 416	Blue	78,9

EuroBin

Axjo Eurobins are durable, industry-standard storage and transport solutions. Built to last, they ensure reliability and efficiency across a wide range of applications.

We can offer Eurobins in many different sizes and designs - contact us for more information.

VLM Frame System

Axjo VLM frame systems are designed to optimize tray utilization in vertical storage lifts. With versatile configurations, they offer efficient and adaptable solutions for maximizing vertical storage capacity. To make your space even more customizable, the frame can be divided using various types of dividers, tailored to your specific needs.

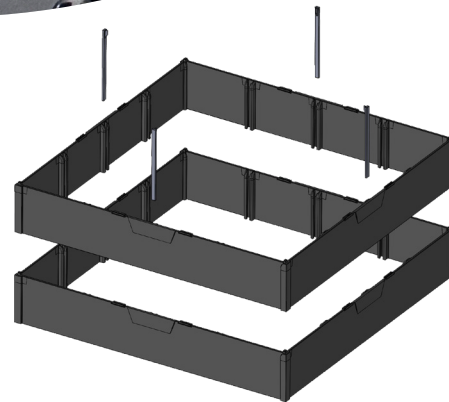

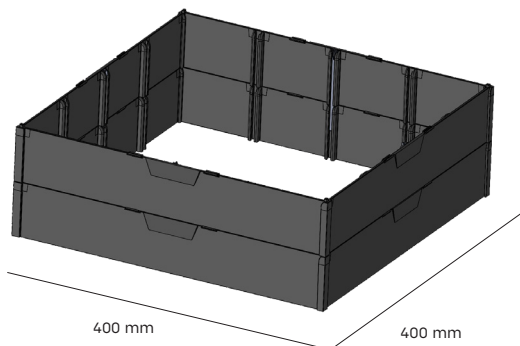

The frame consists of four parts that form a 400x400 mm frame.

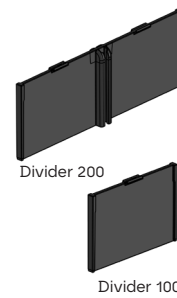

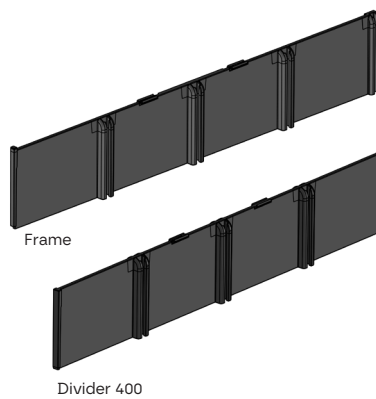

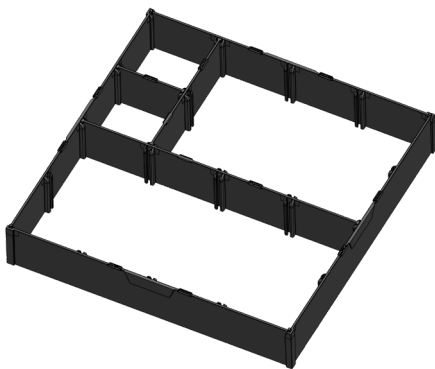

Three sizes of dividers creates spaces from 100x100 mm to 400x400 mm.

The height of the frame is 70 mm. By stacking multiple frames on each other, you can create heights of 70, 140, 210 mm, for example.

Use the locking pins to lock two sections of the frame system.

Art no	Name	Units/carton	Cartons/pallet	Inside measurements	X (mm)	Y (mm)
11257000040	VLM Frame System PPS	50	20	100 x 100	95	95
112570001041	VLM Frame System Divider 100	50	256	100 x 200	95	192
112570002041	VLM Frame System Divider 200	50	20	100 x 300	95	291
112570004041	VLM Frame System Divider 400	50	42	100 x 400	95	389
112570005041	VLM Frame System Locking pin	50	512	200 x 200	192	192
11257600041	VLM Locking Cross	20	512	200 x 300	192	291
				200 x 400	192	389
				300 x 400	291	389
				400 x 400	389	389

Additional Products

The dividers are ergonomically designed and have a flexible lip in the bottom that guarantees a perfect fit. Produced in PP and with a fixation method that

ensures firm fixation - so no risk of the dividers "popping" out when handling the trays.
